

UK-Texas Partnering Bioscience Workshop

Hinxton 14-15th July 2003

Background and Aims:

This workshop will focus on Genomics, Proteomics and Bioinformatics in Cancer. The activities of each of the participating institutions will be showcased. The aim of the workshops is to stimulate interactions between researchers in Texas and in the UK leading to collaborations.

The aims of all the workshops will be:

- To enable researchers from Texas and from the UK to showcase the research activities of their institutions.
- To allow researchers to network with colleagues and explore collaborative opportunities.

The overall outcomes should be:

- The development of collaborative relationships between UK and Texas researchers.
- The exploration of novel opportunities for collaboration.
- Sharing of emerging results.
- Provision of access to specialist equipment.

Day 1:

July 14th, 2003

Bioinformatics

- | | |
|-----------------|---|
| 8.30 am | Welcome |
| 8.40 am | Prof Janet Thornton, Director European Bioinformatics Institute |
| 9.10 am | Dr. Kevin Coombes, University of Texas MD Anderson Cancer Center, Houston |
| 9.30 am | Prof David Gilbert, Professor of Bioinformatics, University of Glasgow |
| 9.50 am | Dr. Bradley Broom, Rice University, Houston |
| 10.10 am | Dr. Christine Mason, Inpharmatica plc |
| 10.30 am | Dr. Jack Smith, University of Texas Health Science Center – Houston |
| 10.50 am | Refreshment Break |
| 11.10 am | Dr. Bruce Luxon, University of Texas Medical Branch, Galveston |
| 11.30 am | Dr. Vasa Curcin, Inforsense/Imperial College London |

11.50 am Dr. Gerard Cote, Texas A&M University, College Station

12.10 pm Dr. Edward Marcotte, The University of Texas at Austin

12:30 pm Dr. Bailey, UT Health Science Center – San Antonio

12.50 pm Lunch

Proteomics

1.40 pm Prof Robert Rees, Department of Life Sciences, Nottingham Trent University

2.00 pm Dr. Ryuji Kobayashi, U.T MD Anderson Cancer Center, Houston

2.20 pm Dr. Graham Taylor, Head of Proteomics Dept, Imperial College London

2.40 pm Dr. Jun Qin, Baylor College of Medicine, Houston

3.00 pm Prof Simon Gaskell, Director 3GP, UMIST

3.20 pm Dr. Marek Kimmel, Rice University, Houston

3.40 pm Dr. Ian Pike, Proteome Sciences plc

4.00 pm Refreshments and Partnering Discussions

4.20 pm Prof David Kerr, University of Oxford

4.40 pm Dr. Mark Hellmich, UT Medical Branch – Galveston

5:00 pm Prof Ashok Venkitaraman, Deputy Director MRC Cancer Cell Unit, University of Cambridge

5.20 pm Dr. Tim Palzkill, Baylor College of Medicine, Houston

5.40 pm Dr. Yousif Shamoo, Rice University, Houston

6:00 pm Close

6:15 pm Reception

7.15 pm Dinner

Day 2

Genomics

- 8.30 am Dr. Stanley Hamilton, UT MD Anderson Cancer Center, Houston
- 8.50 am James MacKay, Consultant Clinical Genetic Oncologist, University College London
- 9.10 am Dr. Monica Justice, Baylor College of Medicine, Houston
- 9.30 am Prof David Goldstein, Wolfson Professor of Genetics, University College London
- 9.50 am Dr. Mark Embree, Rice University, Houston,
- 10.10 am Dr. Nigel Carter, Team Leader Molecular Cytogenetics, Sanger Institute
- 10.30 am Dr. Ken Diller, The University of Texas at Austin
- 10.50 am Refreshment Break**
- 11.20 am Dr. Philip Day, Senior Lecturer, Centre for Integrated Genomic Medical Research (CIGMR), University of Manchester
- 11.40 pm Dr. Malcolm Andrews, Texas A&M University, College Station
- 12.00 pm Dr. Shaun Thomas, King's College London
- 12:20 pm Dr. Bailey or Dr. Agrawal, UT Health Science Center- San Antonio
- 12:40 pm Dr. Mahvash Tavassoli, King's College London
- 1.00 pm Dr. Samuel W. Casscells, UT Health Science Center, Houston
- 1:10 pm Lunch & Optional tour of Sanger Institute**
- 3:00 pm Meeting Close**
